◀ Put the watch pillow extender or watch pillow adapter on the watch pillow for larger size wrist watch. The watch pillow adapters are included in the package.

**Note:**

- \* Please use the AC adapter supplied with the unit.
- Input: AC/100-240V, 50-60Hz
- Output: DC/4V 500mA
- \* Remove the adapter when the winder is not in use.
- \* Always turn off the power when inserting or removing watches.

## Operation:

1. Insert the adapter into the adapter port and plug it into the electrical outlet.
2. Open the front cover and use your index finger and thumb to hold the watch holder from both sides and gently pull out the watch holder.
3. Place the watch on the holder by pushing in the spring on the back of the holder, then put your watch around the holder and let go of the spring.
4. Once the watch is on the holder, place the holder back into the winder. Push until you hear a click signifying that it is securely in the winder.
5. To start operation, please set the interval and direction settings on the back of the watch winder.

## Attention:

- \* If you do not use this product for a long time, please unplug the adapter from the unit.
- \* Make sure to turn the unit off completely before attempting to pull out the watch pillow.
